PLEASE NOTE:

This Play Day has been organised as a fun event for the members of invited car clubs who would like an opportunity to drive their cars at speed in a safe and controlled environment, without having to worry about speed cameras, highway patrol vehicles and on-coming traffic. It is also a chance for the members of different car clubs to participate in an activity together, and to share their friendships and passions.

The utmost importance on driver and vehicle safety will be accentuated during the running of this event. We do not want to see anyone injured or any vehicles damaged as a result of reckless or dangerous behaviour by any participant. As such, it is the responsibility of every driver to ensure they drive within their own capabilities and the stability and performance limits of the vehicles they are driving, at all times.

REMEMBER – This is a track play day, NOT a race!
